

ONLINE BILL PAY BUNDLE

Get paid faster with flexible, self-service online bill pay

k-eCommerce Online Bill Pay Bundle unites our flexible online bill pay module and industry leading, PA-DSS Certified Credit Card Extension (plus the Credit Card eInterface) for Microsoft Dynamics® GP.

The Online Bill Pay Bundle is a versatile solution for merchants who want to accept ACH/eCheck and credit card payments from customers. As a bundled product, this solution provides a cost-effective way to increase the functionality of your web environment.

ACCEPT OPEN INVOICE PAYMENTS **24/7/365** FROM YOUR WEB STORE WITH OUR **SELF-SERVICE ONLINE BILL PAY PORTAL**.

HOW IT WORKS

On your web store, the menu item labeled "Online Bill Pay" will be visible when the module is available. The page will display all the open invoices for the customer that is logged in.

To pay an invoice, the customer simply checks the box labeled "Select to Pay" for whichever invoices they choose. The amount of the invoice will display in the "Payment Amount" column. The customer has the ability to enter a partial payment or the total amount.

FUNDAMENTAL INTEGRATION

The online bill pay module provides a portal for your customers to log in to and pay outstanding invoices on a website with seamless integration to Microsoft Dynamics® GP and both k-eCommerce B2B and Sales Portal.

ENHANCE CUSTOMER SELF SERVICE

Adding this functionality to your web store allows customers to log in and pay invoices online when their account is close, reducing the amount of last minute payments to process.

PRODUCT FLEXIBILITY

The addition of Credit Card Extension gives you the ability to charge credit cards from a variety of windows allowing you to validate and process a transaction anytime. Online Bill Pay Bundle utilizes one system for both online credit card orders as well as Microsoft Dynamics® GP orders.

SECURE ONLINE PURCHASE

Research has shown that deserted shopping carts and abandoned purchases can often be tied to concerns about sharing credit card data. Since the online bill pay account is tied to a single email address, your customers can be assured that the buying environment is safe and secure.
